RE: IMPORTANT NOTICE – Price Adjustment Due to Tariff Implementation

Dear Valued Customer,

We are writing to inform you of an important update regarding our product pricing that will affect your future orders with PROKAHL™.

As you may be aware, recent trade policy changes have resulted in the implementation of a 25% tariff on imported steel fasteners, specifically affecting products classified under Harmonized System (HS) Code **7318.14.00 – Self-tapping screws**. This tariff applies to all drywall and framing screws imported into Canada, which constitute the majority of our product portfolio.

Despite our best efforts to absorb these additional costs through operational efficiencies and supply chain optimization, the magnitude of this tariff increase makes it necessary for us to adjust our pricing structure to maintain the high quality and reliable service you have come to expect from PROKAHL™.

EFFECTIVE DATE & PRICING

Effective **March 10, 2026**, new pricing will be applied to all orders. Please find attached our updated price list reflecting these changes. We have worked diligently to minimize the impact on your business while ensuring we can continue to provide you with:

- ISO 9001 and ISO 14001 certified products
- ASTM C1002 compliant fasteners
- Consistent inventory availability
- The same exceptional customer service and technical support

WHAT THIS MEANS FOR YOU

- All quotes issued prior to March 10, 2026 will be honored for orders placed within their validity period
- Orders placed after the effective date will be subject to the new pricing structure
- Your dedicated account manager remains available to discuss volume pricing options
- We encourage you to review your upcoming project requirements and consider placing orders ahead of the implementation date

Proudly Canadian

OUR COMMITMENT TO YOU

At PROKAHL™, our mission has always been to "Supply smarter. Build better." This commitment extends beyond competitive pricing to encompass product quality, reliable delivery, and partnership in your success. While this adjustment is unavoidable, we remain dedicated to delivering exceptional value through superior products and service.

We understand that price increases present challenges for your business planning and budgeting. Our team is available to discuss:

- Optimized ordering strategies to maximize value
- Product alternatives that may offer cost efficiencies
- Volume-based pricing programs for your high-usage items
- Inventory planning to support your project pipeline

NEXT STEPS

We encourage you to:

1. Review the attached updated price list
2. Contact your account manager to discuss any questions or concerns
3. Evaluate your current and upcoming project requirements
4. Consider submitting advance orders to secure current pricing

Please do not hesitate to reach out if you have questions about this pricing update or if you would like to discuss how we can best support your business moving forward. We value our partnership and appreciate your understanding as we navigate these market changes together.

Thank you for your continued trust in PROKAHL™ as your fastener solutions provider.

Sincerely,

Arsh Singh
